

Delivering our Corporate Strategy 2015/20 through the  
**Outdoor Recreation and Access Enabling Plan**

**Action Plan 2015 - 2020**

# Our Action Plan

What we want to achieve:

**More people in Wales participating in, and benefitting from, outdoor recreation more often**

Why do we want to achieve this?

To deliver the following benefits:

- Increase people's appreciation of and care for the environment
- Improve social equity and cohesion of people and communities
- Increase the economic benefits to Wales
- Improve people's health and wellbeing

How will we achieve our aim and deliver the associated benefits?

We will do this through ensuring:

1. Access opportunities are provided and improved that best meet people's needs for recreational enjoyment of the outdoors
2. Promotional information and engagement about recreational access opportunities are widely available in appropriate formats
3. Recreational users have an increased understanding of how to act responsibly in the natural environment
4. Effective planning for the sustainable recreational use and management of natural resources is embedded in our work
5. Effective mechanisms for the delivery of the benefits of outdoor recreational are developed and embedded in our work

We have three **overarching principles** that form the basis of our delivery. These are that:

1. All outdoor recreational provision delivered, facilitated or funded by NRW will adhere to the principles of least restrictive access and be developed and delivered in accordance with the Equality Act 2010.
2. We will align our work to deliver the benefits of recreation and access through spatial targeting, focussing first on those areas that deliver the greatest benefit for people and communities.
3. We will be an enabling organisation, working with partners and others to facilitate outdoor recreation and access activity both on and off our own land.

The following tables give overarching areas of work through which we aim to deliver our identified outcome and associated benefits. Each Directorate Delivery Plan will provide a more detailed programme of work, including key internal and external partners, aimed at delivering our outcome and associated benefits.

Our Action Plan is colour coded for ease of reference:

	<b>C</b> ontinued existing activity	This means we need to deliver an existing activity in order to continue our day to day functions
	<b>E</b> nhanced existing activity	This means that we need to enhance or change the way we deliver an existing activity to make it fit for purpose
	<b>N</b> ew activity	This means that this is a new work areas for NRW

# 1. Access opportunities are provided and improved that best meet people's needs for recreational enjoyment of the outdoors

Our priorities are:

- Identifying people's and communities' needs for outdoor recreation opportunities and activities
- Provision of opportunities that bring the greatest health and well-being benefits to people and communities
- Provision of opportunities that bring the greatest social benefits, particularly in relation to social equity and cohesion
- Provision of opportunities that maximise the economic benefits across Wales
- Opportunities that support or lead to more sustainable use of natural resources [including linked to active travel]
- Opportunities that are provided close to where people live, work and visit
- Opportunities that improve integration of recreational access networks
