# Notice to Mariners

## **DEE CONSERVANCY**

**No.07 – 2015**

## **DEE ESTUARY**

## **River Dee – Canalised Section**

### **Floating Debris**

Mariners are reminded that on occasions large pieces of debris from decaying timber jetties are present particularly within the canalised section of the river. These items may drift up and downstream on the tides for extended periods.

There has recently been an increase in the number of large timbers sighted, and these are collected and removed when possible.

**Mariners and particularly the operators of small vessels are reminded of the need to maintain a good lookout for debris particularly during the hours of darkness.**

**Those engaged in water sport activities should check the intended area of use before proceeding.**

Dee Conservancy Notice to Mariners 09 of 2014 is hereby cancelled.
